

# GN60

VERSION 2

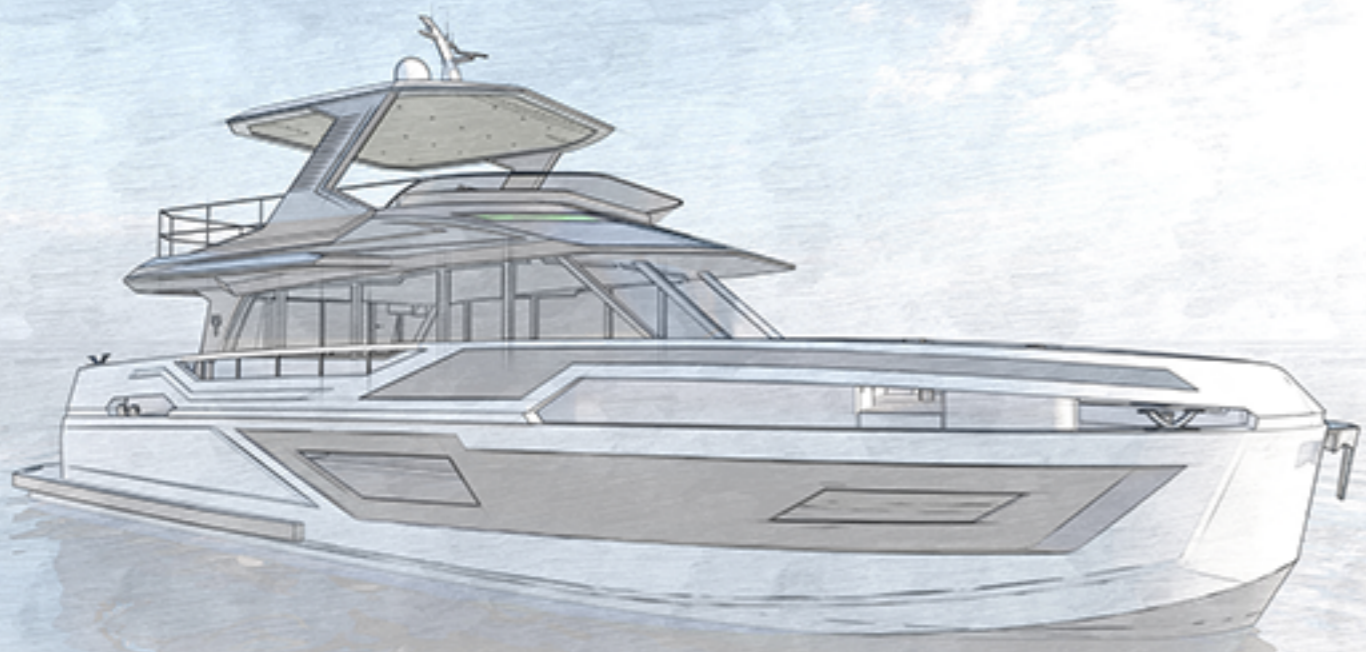

The concept behind the Greenaval series is maximizing the comfort and efficiency while keeping its eco-friendly abilities. Greenaval's differentiation on the electrical yacht market is given by its vast and modern furnished interiors available at a reasonable price.

WHAT IF  
WE LEAD  
A POSITIVE  
CHANGE?

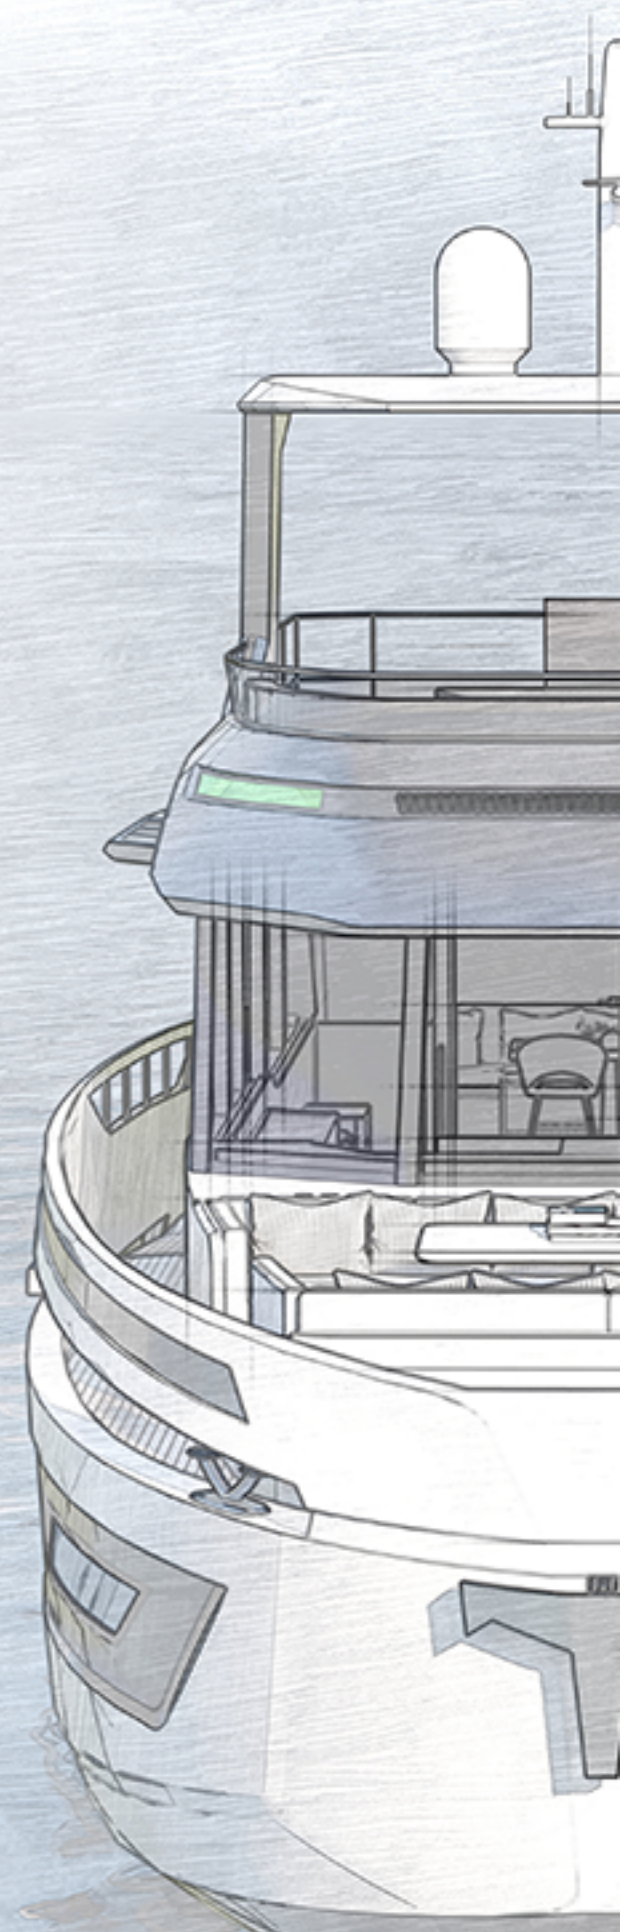

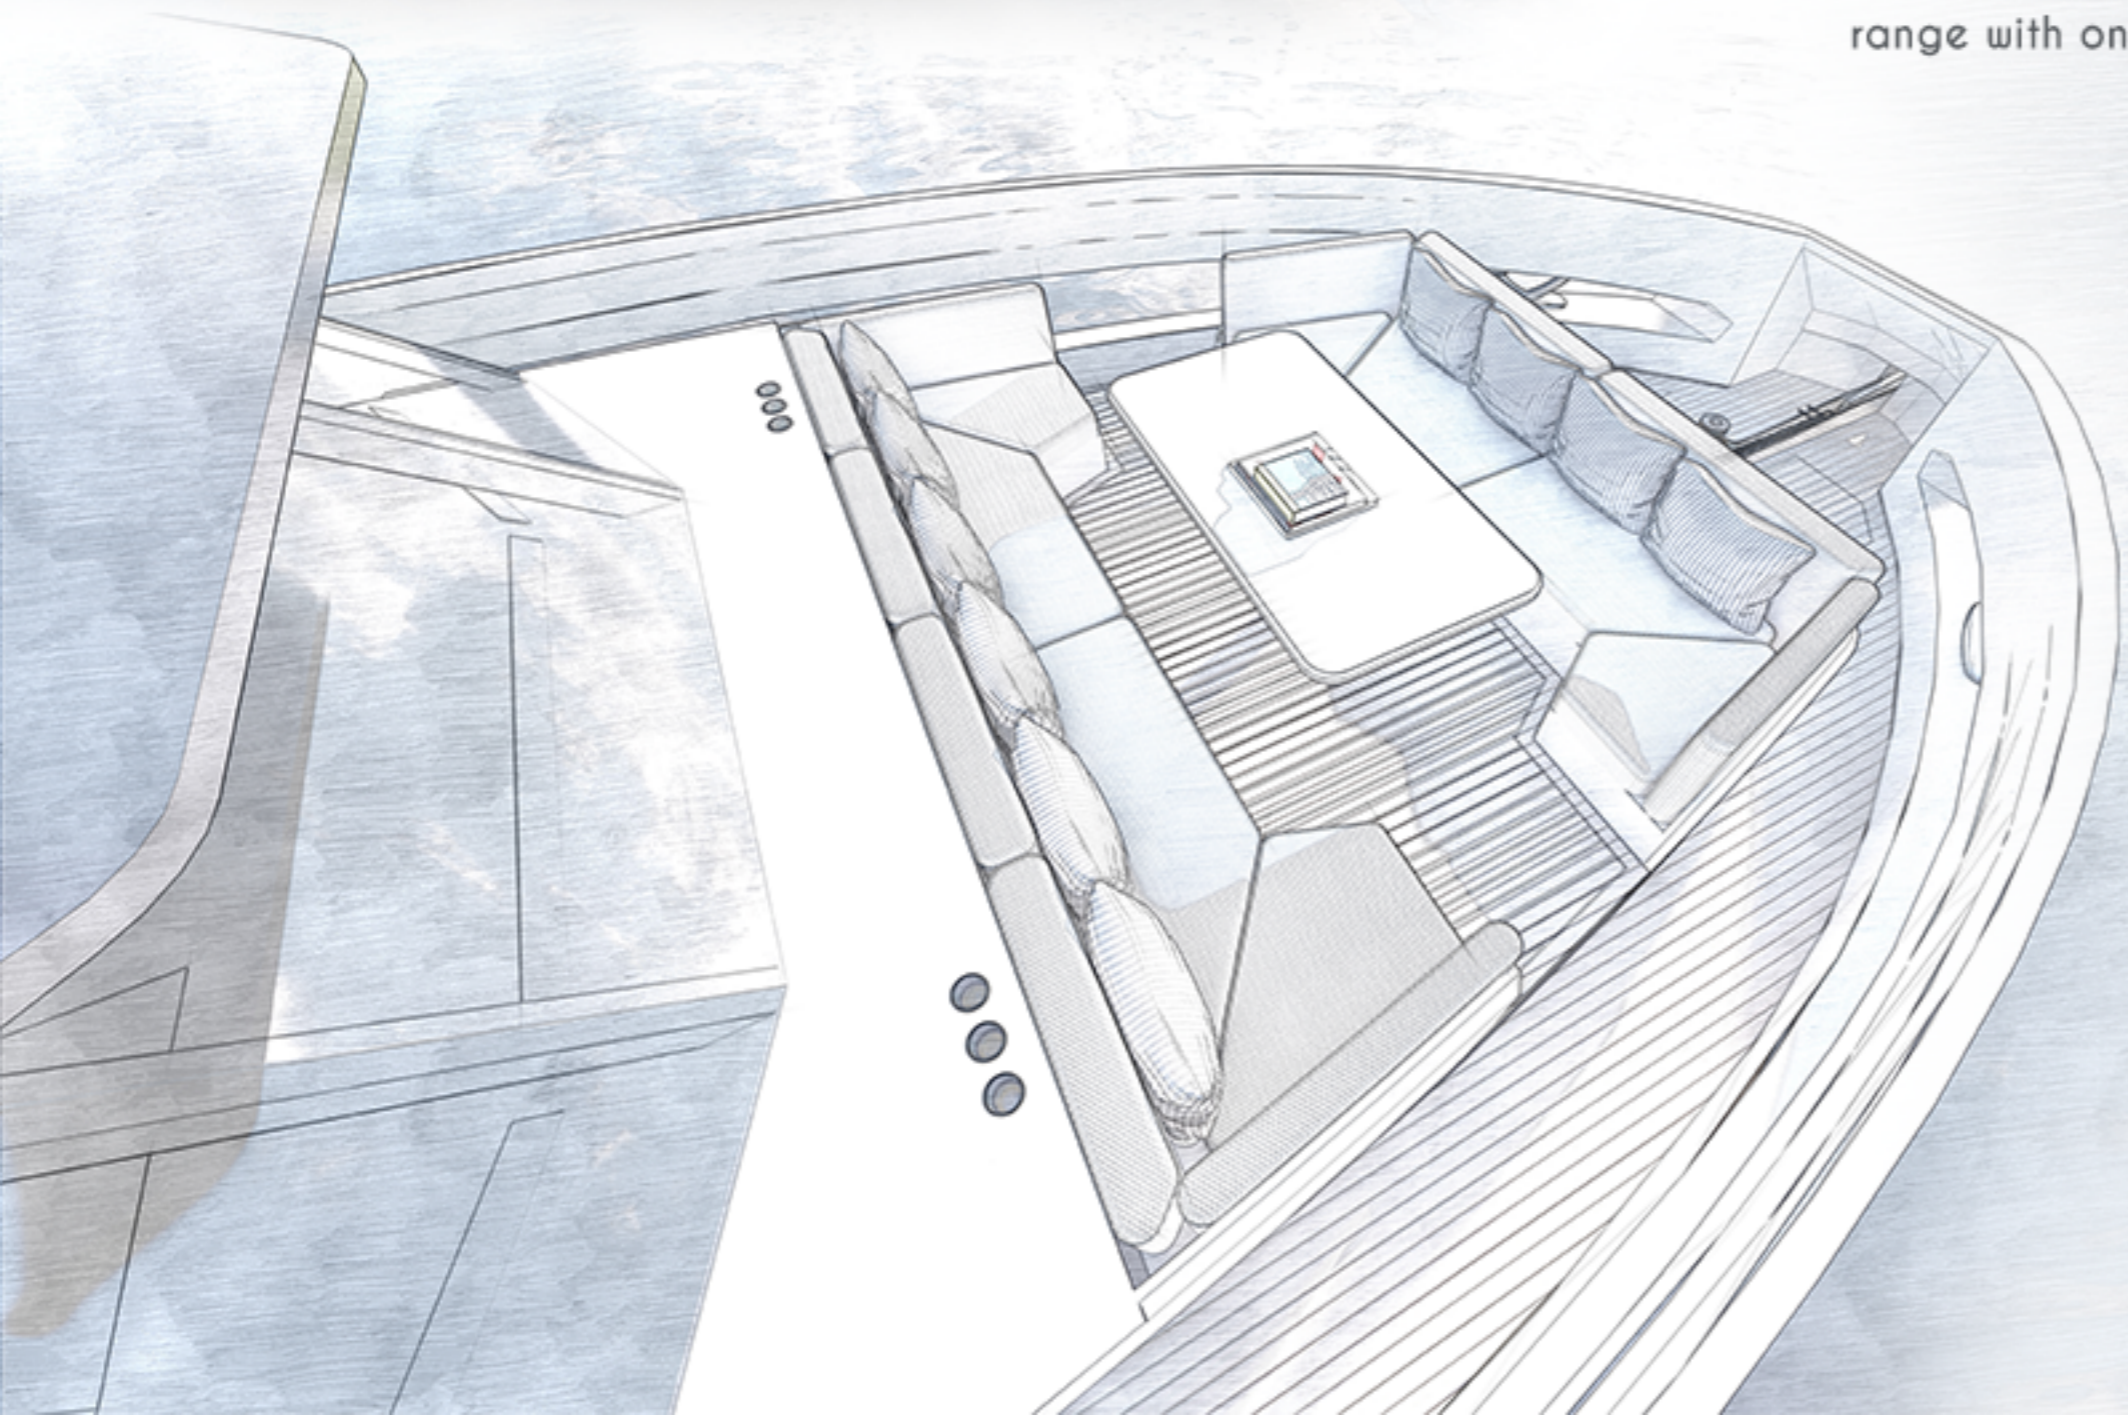

# AERODYNAMIC STRUCTURE

Sleek and assertively proportioned exterior

Upper housing and shell manufactured from marine aluminum by highly experienced team, provides higher performance and fuel saving in low-speed for GN60. GN60 allows 25mile free daily cruise range with one charge.
